INDEPENDENT AUDITOR'S REPORT

To the School Board and Management of
Independent School District No. 139
Rush City, Minnesota

OPINIONS

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Independent School District No. 139, Rush City, Minnesota (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2022, and the respective changes in financial position, and, where applicable, the budgetary comparison for the General Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

BASIS FOR OPINIONS

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

EMPHASIS OF MATTER

Change in Accounting Principle

As described in Note 1 to the basic financial statements, in fiscal 2022, the District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

(continued)

RESPONSIBILITIES OF MANAGEMENT FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(continued)

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual fund financial statements and schedules, and the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not required parts of the basic financial statements. The accompanying Uniform Financial Accounting and Reporting Standards (UFARS) Compliance Table is presented for purposes of additional analysis as required by the Minnesota Department of Education, and is also not a required part of the basic financial statements of the District. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules, the Schedule of Expenditures of Federal Awards, and the UFARS Compliance Table, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

(continued)

Prior Year Comparative Information

We have previously audited the District's 2021 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information in our report dated January 23, 2023. In our opinion, the partial comparative information presented herein as of and for the year ended June 30, 2021 is consistent, in all material respects, with the audited financial statements from which it has been derived.

OTHER REPORTING REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 3, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Malloy, Montague, Karnowski, Radosevich & Co., P.A.

INDEPENDENT SCHOOL DISTRICT NO. 139

Management's Discussion and Analysis Year Ended June 30, 2022

This section of Independent School District No. 139's (the District) annual financial statements presents management's narrative overview and analysis of the District's financial performance during the fiscal year ended June 30, 2022. Please read it in conjunction with the other components of the District's annual financial statements.

FINANCIAL HIGHLIGHTS

- The District's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at June 30, 2022 by \$6,883,998. The District's total net position increased by \$2,925,474 during the fiscal year ended June 30, 2022.
- Government-wide revenues totaled \$15,022,219 and were \$2,925,474 more than expenses of \$12,096,745.
- The General Fund's total fund balance (under the governmental fund presentation) increased \$1,682,241 from the prior year, compared to an increase of \$1,099,237 planned in the budget.
- As described in Note 1 to the basic financial statements, the District implemented the new lease standard as required in the current year. This change increased beginning capital assets and long-term debt by \$192,766, but did not impact beginning net position/fund balances.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual financial statements consists of the following parts:

- Independent Auditor's Report;
- Management's discussion and analysis;
- Basic financial statements, including the government-wide financial statements, fund financial statements, and the notes to basic financial statements;
- Required supplementary information; and
- Supplemental information consisting of combining and individual fund financial statements and schedules.

The following explains the two types of statements included in the basic financial statements:

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements (Statement of Net Position and Statement of Activities) report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes *all* of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, except for the fiduciary fund. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's *net position* and how it has changed. Net position—the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources—is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District requires consideration of additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements the District's activities are all shown in one category titled "governmental activities." These activities, including regular and special education instruction, transportation, administration, food services, and community education, are primarily financed with state aids and property taxes.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or major funds, rather than the District as a whole. Funds (Food Service Special Revenue and Community Service Special Revenue) that do not meet the threshold to be classified as major funds are called nonmajor funds. Detailed financial information for nonmajor funds can be found in the supplemental information section.

Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. For Minnesota schools, funds are established in accordance with Uniform Financial Accounting and Reporting Standards in accordance with statutory requirements and accounting principles generally accepted in the United States of America. Some funds are required by state law and by bond covenants. The District can establish other funds to control and manage money for particular purposes or to show that it is properly using certain revenues.

The District maintains the following kinds of funds:

Governmental Funds – The District's basic services are included in governmental funds, which generally focus on: 1) how *cash and other financial assets* that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds financial statements provide a detailed *short-term* view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide financial statements, we provide additional information (reconciliation schedules) immediately following the governmental funds financial statements that explain the relationship (or differences) between these two types of financial statement presentations.

Fiduciary Funds – The District is the trustee, or fiduciary, for assets that belong to other organizations or individuals. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. We exclude these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Table 1 is a summarized view of the District's Statement of Net Position:

	2022	2021
Assets		
Current and other assets	\$ 11,774,798	\$ 9,992,400
Capital assets, net of depreciation/amortization	14,504,270	15,042,296
Total assets	\$ 26,279,068	\$ 25,034,696
Deferred outflows of resources		
Pension plan deferments	\$ 2,585,029	\$ 2,946,317
OPEB plan deferments	88,131	37,381
Total deferred outflows of resources	\$ 2,673,160	\$ 2,983,698
Liabilities		
Current and other liabilities	\$ 1,196,703	\$ 1,196,258
Long-term liabilities, including due within one year	11,095,219	15,007,877
Total liabilities	\$ 12,291,922	\$ 16,204,135
Deferred inflows of resources		
Property taxes levied for subsequent year	\$ 3,287,966	\$ 3,189,889
Pension plan deferments	6,479,377	4,653,892
OPEB plan deferments	8,965	11,954
Total deferred inflows of resources	\$ 9,776,308	\$ 7,855,735
Net position		
Net investment in capital assets	\$ 8,473,851	\$ 7,793,385
Restricted	2,657,740	1,777,541
Unrestricted	(4,247,593)	(5,612,402)
Total net position	\$ 6,883,998	\$ 3,958,524

The District's financial position is the product of many factors. For example, the determination of the District's net investment in capital assets involves many assumptions and estimates, such as current and accumulated depreciation and amortization amounts. A conservative versus liberal approach to depreciation estimates, as well as capitalization policies, will produce a significant difference in the calculated amounts. Another major factor in determining net position as compared to fund balances is the liability for long-term pension and other post-employment benefits (OPEB), which impacts unrestricted net position.

The District's increase in net investment in capital assets is due mostly to the relationship between the rate at which the District's capital assets are being depreciated and amortized and how that compares to the rate at which the District is repaying the debt issued to purchase or construct those assets. The District's increase in net position restricted for capital asset acquisition and facilities maintenance, food service, other state funding purposes, debt service, and Permanent Fund contributed to the increase in the restricted portion of net position. The change in the District's share of the Public Employees Retirement Association (PERA) and the Teachers Retirement Association (TRA) pension plans also contributed to the change in deferred outflows, long-term liabilities, deferred inflows, and unrestricted net position. Positive operations in the current year also contributed to the increases in current assets and unrestricted net position.

Table 2 presents a summarized version of the District’s Statement of Activities:

	<u>2022</u>	<u>2021</u>
Revenues		
Program revenues		
Charges for services	\$ 545,707	\$ 256,353
Operating grants and contributions	3,003,336	2,461,531
General revenues		
Property taxes	3,353,763	3,167,543
General grants and aids	7,336,176	7,178,152
Other	783,237	115,952
Total revenues	<u>15,022,219</u>	<u>13,179,531</u>
Expenses		
Administration	707,193	778,610
District support services	474,264	394,701
Elementary and secondary regular instruction	4,367,724	4,246,307
Vocational education instruction	201,994	235,324
Special education instruction	1,955,058	1,946,394
Instructional support services	671,731	754,866
Pupil support services	892,363	663,792
Sites and buildings	975,331	1,245,545
Fiscal and other fixed cost programs	91,568	78,083
Food service	497,966	351,556
Community service	469,985	360,480
Depreciation/amortization not included in other functions	664,032	710,510
Interest and fiscal charges	127,536	168,700
Total expenses	<u>12,096,745</u>	<u>11,934,868</u>
Change in net position	2,925,474	1,244,663
Net position – beginning	<u>3,958,524</u>	<u>2,713,861</u>
Net position – ending	<u>\$ 6,883,998</u>	<u>\$ 3,958,524</u>

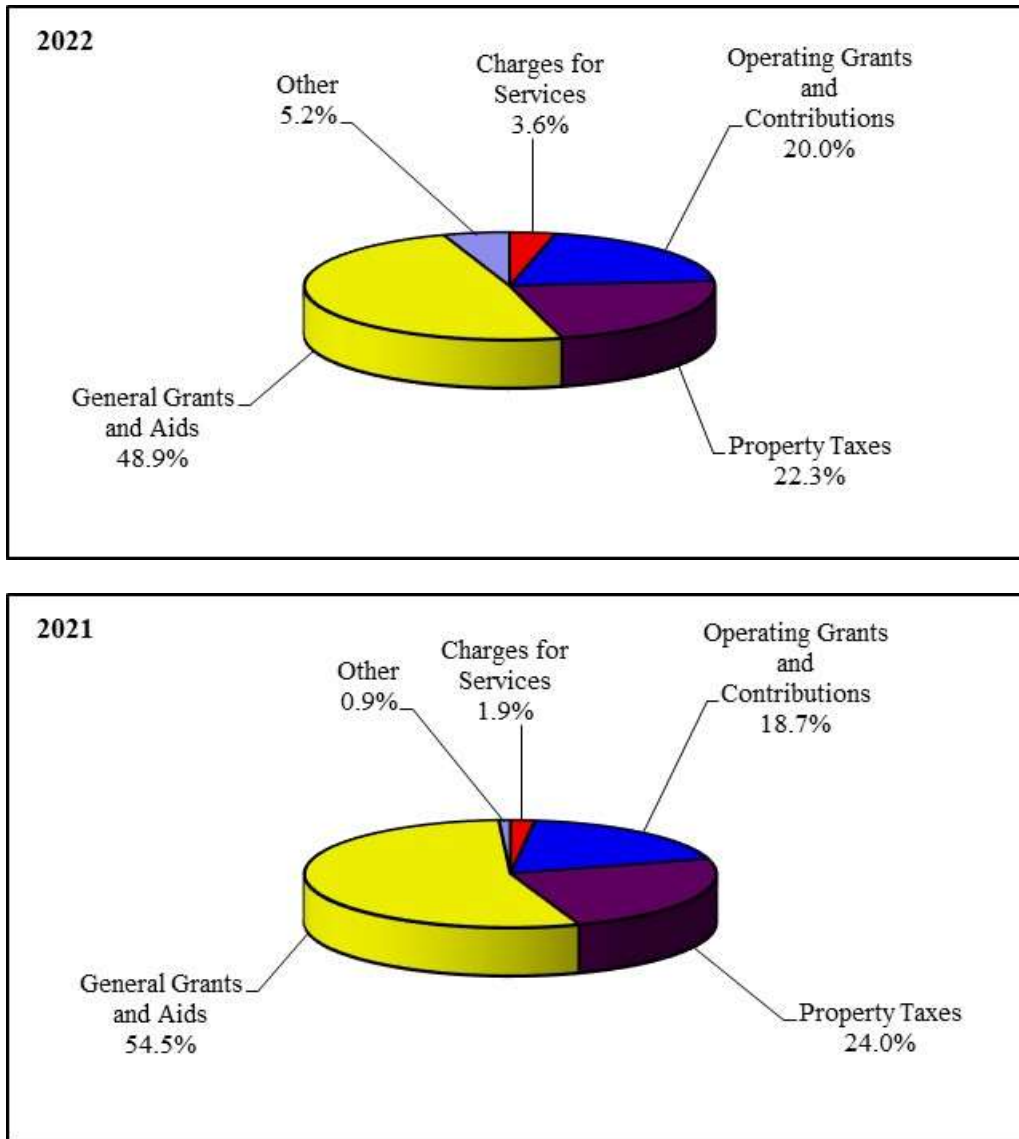

This table is presented on an accrual basis of accounting, and it includes all of the governmental activities of the District. This statement includes depreciation/amortization expense, but excludes capital asset purchase costs, debt proceeds, and the repayment of debt principal.

The increase in charges for services was largely due to the changes caused by the COVID-19 pandemic reducing prior year amounts and returning closer to pre-pandemic levels in the current year. Operating grants and contributions, along with general grants and aids, increased from the prior year, due to increased COVID-19 pandemic-related stimulus funding recognized by the District in the current year. An increase in the approved levy contributed to the change in property taxes in the current year. The District received an insurance settlement in the current year that increased “Other” general revenues.

Spending was similar to the prior year as natural inflationary increases and pandemic grant spending was partially offset by changes in state-wide pension plans.

Figure A shows further analysis of these revenue sources:

Figure A – Sources of Revenues for Fiscal Years 2022 and 2021

The largest share of the District's revenue is received from the state, including the general education aid formula and most of the operating grants.

Property taxes are generally the next largest source of funding. The level of revenue property tax sources provide is not only dependent on district taxpayers by way of operating and building referenda, but also by decisions made by the Legislature in the mix of state aid and local effort in a variety of funding formulas.

Figure B shows further analysis of these expense functions:

Figure B – Expenses for Fiscal Years 2022 and 2021

The District's expenses are predominately related to educating students. Programs (or functions), such as elementary and secondary regular instruction, vocational education instruction, special education instruction, and instructional support services are directly related to classroom instruction, while the rest of the programs support instruction and other necessary costs to operate the District.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds reported combined fund balances of \$6,512,196, an increase of \$1,810,755 from the previous year. This increase was primarily in the General Fund as discussed below.

The General Fund total fund balance increased from \$3,815,775 at June 30, 2021 to \$5,498,016 at June 30, 2022, an increase of \$1,682,241. The District had anticipated an increase of \$1,099,237 as planned in the final adopted budget. The current year increase was spread across restricted, assigned, and unassigned portions of fund balance.

The Debt Service Fund equity is entirely restricted to pay bonded obligations of the District. The overall fund balance of the Debt Service Fund decreased by \$8,313 in the current year. The remaining fund balance of \$306,809 at June 30, 2022, is available for meeting future debt service obligations.

The Permanent Fund, used to account for the District's Aquatic Center contributions, recognized a slight fund balance increase of \$305. Investment earnings were more than expenditures in the current year. The Permanent Fund ended the year with a total fund balance of \$523,458.

The Food Service Special Revenue Fund reported \$163,728 more in revenues than expenditures, increasing the fund balance to \$137,077 at year-end. The Community Service Special Revenue Fund reported a decrease in fund balance of \$27,206, ending the year with a total fund balance of \$46,836.

General Fund Budgetary Points of Interest

The District is required to adopt an operating budget prior to the beginning of its fiscal year, referred to as the original budget. During the year, the District may amend that budget for known changes in circumstances such as updated enrollment levels, legislative funding, funding changes from grants or other local sources, staffing changes, insurance premium changes, special education estimate changes, and employee contract settlements. The District did not amend the budget during the current year.

The General Fund's actual operating results were favorable compared to budget projections, with equity ending the year \$583,004 more than the ending projected amounts. Total revenues and other financing sources were \$352,073 more than anticipated in the budget. The largest variance contributing to actual amounts exceeding budget was due to a large insurance recovery for storm damage that occurred in a prior year. General Fund programs experienced favorable expenditure variances, with spending ending the year under the total amounts approved in the final budget. Total General Fund expenditures and other financing uses were \$230,931 below the projected amounts reported in the budget.

CAPITAL ASSETS AND LONG-TERM LIABILITIES

Capital Assets

The following table shows the District's capital assets, together with changes from the previous year. The table also shows the total depreciation/amortization expense for fiscal years ended June 30, 2022 and 2021.

	<u>2022</u>	<u>2021</u>	<u>Change</u>
Land	\$ 235,734	\$ 235,734	\$ –
Land improvements	1,743,880	1,693,180	50,700
Buildings	27,106,797	27,101,797	5,000
Furniture and equipment	3,100,559	3,050,798	49,761
Furniture and equipment – leased	192,766	–	192,766
Less accumulated depreciation/amortization	<u>(17,875,466)</u>	<u>(17,039,213)</u>	<u>(836,253)</u>
Total	<u>\$ 14,504,270</u>	<u>\$ 15,042,296</u>	<u>\$ (538,026)</u>
Depreciation/amortization expense	<u>\$ 836,253</u>	<u>\$ 827,760</u>	<u>\$ 8,493</u>

By the end of 2022, the District had invested in a broad range of capital assets, including school buildings, athletic facilities, and other equipment for various instructional programs (see Table 3).

The changes presented in the table above reflect the ongoing activity at district sites during fiscal year 2022, including the capital spending in the General Fund.

The District defines capital assets as those with an initial, individual cost of \$2,500 or more, which benefit more than one fiscal year.

Additional details about capital assets can be found in the notes to basic financial statements.

Long-Term Liabilities

Table 4 illustrates the components of the District's long-term liabilities with changes from the prior year:

	<u>2022</u>	<u>2021</u>	<u>Change</u>
General obligation bonds payable	\$ 5,585,000	\$ 6,850,000	\$ (1,265,000)
Unamortized premium/discount	309,976	398,911	(88,935)
Financed purchase payable	763,046	902,616	(139,570)
Leases payable	135,443	–	135,443
Net pension liability	3,910,369	6,522,914	(2,612,545)
Total OPEB liability	<u>391,385</u>	<u>333,436</u>	<u>57,949</u>
 Total	 <u>\$ 11,095,219</u>	 <u>\$ 15,007,877</u>	 <u>\$ (3,912,658)</u>

The changes in general obligation bonds payable, unamortized premium/discount, and financed purchase payable, in the table above, are primarily due to principal payments and amortization during fiscal year 2022, as planned in the approved repayment schedules.

The District implemented the requirements of a new lease standard in the current year contributing to the change in leases payable in the previous table.

The difference in the net pension liability reflects the change in the District's proportionate share of the state-wide pension obligations for the PERA and the TRA.

The state limits the amount of general obligation debt the District can issue to 15.0 percent of the market value of all taxable property within the District's corporate limits (see Table 5):

District's market value	\$ 585,097,300
Limit rate	<u>15.0%</u>
Legal debt limit	<u>\$ 87,764,595</u>

Additional details of the District's long-term debt activity can be found in the notes to basic financial statements.

FACTORS BEARING ON THE DISTRICT'S FUTURE

With the exception of the voter-approved operating referendum, the District is dependent on the state of Minnesota for a majority of its revenue authority.

The general education program is the method by which school districts receive the majority of their financial support. This source of funding is primarily state aid and, as such, school districts rely heavily on the state of Minnesota for educational resources. The Legislature has added \$135, or 2.00 percent, per pupil to the basic general education funding formula for fiscal year 2023.

The amount of funding a district receives is also dependent on the number of students it serves, meaning attracting and retaining students is critical to the District's financial well-being.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These financial statements are designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about these statements, or need additional financial information, contact the Business Manager and/or the Superintendent, Independent School District No. 139, 51001 Fairfield Avenue, P.O. Box 566, Rush City, Minnesota 55069.

BASIC FINANCIAL STATEMENTS

INDEPENDENT SCHOOL DISTRICT NO. 139

Statement of Net Position
as of June 30, 2022

Reconciliation of the Balance Sheet to the
Statement of Net Position
Governmental Funds
as of June 30, 2022
(With Partial Comparative Information as of June 30, 2021)

	<u>2022</u>	<u>2021</u>
Total fund balances – governmental funds	\$ 6,512,196	\$ 4,701,441
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets are included in net position, but are excluded from fund balances because they do not represent financial resources.		
Cost of capital assets	32,379,736	32,081,509
Accumulated depreciation/amortization	(17,875,466)	(17,039,213)
Long-term liabilities are included in net position, but are excluded from fund balances until due and payable. Debt issuance premiums and discounts are excluded from net position until amortized, but are included in fund balances upon issuance as other financing sources and uses.		
General obligation bonds payable	(5,585,000)	(6,850,000)
Unamortized premium/discount	(309,976)	(398,911)
Financed purchase payable	(763,046)	(902,616)
Leases payable	(135,443)	–
Net pension liability	(3,910,369)	(6,522,914)
Total OPEB liability	(391,385)	(333,436)
Accrued interest payable is included in net position, but is excluded from fund balances until due and payable.	(69,812)	(85,625)
The recognition of certain revenues and expenses/expenditures differ between the full accrual governmental activities financial statements and the modified accrual governmental fund financial statements.		
Deferred outflows of resources – pension plan deferments	2,585,029	2,946,317
Deferred outflows of resources – OPEB plan deferments	88,131	37,381
Deferred inflows of resources – pension plan deferments	(6,479,377)	(4,653,892)
Deferred inflows of resources – OPEB plan deferments	(8,965)	(11,954)
Deferred inflows of resources – unavailable revenue – long-term receivable	763,046	902,616
Deferred inflows of resources – unavailable revenue – delinquent taxes	84,699	87,821
Total net position – governmental activities	<u>\$ 6,883,998</u>	<u>\$ 3,958,524</u>

Reconciliation of the Statement of
Revenue, Expenditures, and Changes in Fund Balances
to the Statement of Activities
Governmental Funds
Year Ended June 30, 2022

(With Partial Comparative Information for the Year Ended June 30, 2021)

	<u>2022</u>	<u>2021</u>
Total net change in fund balances – governmental funds	\$ 1,810,755	\$ 1,292,287
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays are recorded as net position and the cost is allocated over their estimated useful lives as depreciation/amortization expense. However, fund balances are reduced for the full cost of capital outlays at the time of purchase.		
Capital outlays	105,461	184,562
Depreciation/amortization expense	(836,253)	(827,760)
A gain or loss on the disposal of capital assets, including the difference between the carrying value and any related sale proceeds, is included in the change in net position. However, only the sale proceeds are included in the change in fund balances.		
	–	(332,010)
Repayment of long-term debt does not affect the change in net position. However, it reduces fund balances.		
General obligation bonds payable	1,265,000	1,220,000
Financed purchase payable	139,570	135,515
Leases payable	57,323	–
Interest on long-term debt is included in the change in net position as it accrues, regardless of when payment is due. However, it is included in the change in fund balances when due.		
	15,813	15,250
Debt issuance premiums and discounts are included in the change in net position as they are amortized over the life of the debt. However, they are included in the change in fund balances upon issuance as other financing sources and uses.		
	88,935	88,935
Certain expenses are included in the change in net position, but do not require the use of current funds, and are not included in the change in fund balances.		
Net pension liability	2,612,545	(1,225,908)
Total OPEB liability	(57,949)	(26,399)
The recognition of certain revenues and expenses/expenditures differ between the full accrual governmental activities financial statements and the modified accrual governmental fund financial statements.		
Deferred outflows of resources – pension plan deferments	(361,288)	(1,339,632)
Deferred outflows of resources – OPEB plan deferments	50,750	16,808
Deferred inflows of resources – pension plan deferments	(1,825,485)	2,192,578
Deferred inflows of resources – OPEB plan deferments	2,989	2,989
Deferred inflows of resources – unavailable revenue – long-term receivable	(139,570)	(135,515)
Deferred inflows of resources – unavailable revenue – delinquent taxes	(3,122)	(17,037)
Change in net position – governmental activities	<u>\$ 2,925,474</u>	<u>\$ 1,244,663</u>

INDEPENDENT SCHOOL DISTRICT NO. 139

Notes to Basic Financial Statements
Year Ended June 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

Independent School District No. 139 (the District) was formed and operates pursuant to applicable Minnesota laws and statutes. The District is governed by a School Board elected by voters of the District. The District's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity

The accompanying financial statements include all funds, departments, agencies, boards, commissions, and other organizations that comprise the District, along with any component units.

Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit. Based on these criteria, there are no organizations considered to be component units of the District.

C. Government-Wide Financial Statement Presentation

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. Generally, the effect of material interfund activity has been removed from the government-wide financial statements. Transactions representing interfund services provided and used are not eliminated in the consolidation process to the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other internally directed revenues are reported instead as general revenues.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory “tax shift” described later in these notes. Grants and similar revenues are recognized when all eligibility requirements imposed by the provider have been met.

For capital assets that can be specifically identified with, or allocated to functional areas, depreciation/amortization expense is included as a direct expense in the functional areas that utilize the related capital assets. For capital assets that essentially serve all functional areas, depreciation/amortization expense is reported as “depreciation/amortization not included in other functions.” Interest on debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Fund Financial Statement Presentation

Separate fund financial statements are provided for governmental and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Aggregated information for the remaining nonmajor governmental funds is reported in a single column in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting, transactions are recorded in the following manner:

- 1. Revenue Recognition** – Revenue is recognized when it becomes measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District generally considers revenues, including property taxes, to be available if they are collected within 60 days after year-end. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. State revenue is recognized in the year to which it applies according to funding formulas established by Minnesota Statutes. Proceeds of long-term debt and acquisitions under leases are reported as other financing sources.
- 2. Recording of Expenditures** – Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and other long-term liabilities, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as capital outlay expenditures in the governmental funds. In the General Fund, capital outlay expenditures are included within the applicable functional areas.

Fiduciary funds are presented in the fiduciary fund financial statements by type: the District has a Scholarship Custodial Fund. Since, by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the government-wide financial statements.

Fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as described earlier in these notes.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Description of Funds

The existence of the various district funds has been established primarily by the Minnesota Department of Education (MDE). Each fund is accounted for as an independent entity. Descriptions of the funds included in this report are as follows:

Major Governmental Funds

General Fund – The General Fund is the government’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and payment of, general obligation debt principal, interest, and related costs.

Permanent Fund – The Permanent Fund accounts for the Aquatic Center’s contributions received and held by the District as restricted for pool center operations. Disbursements from the Permanent Fund are made in accordance with the trust agreement.

Nonmajor Governmental Funds

Food Service Special Revenue Fund – The Food Service Special Revenue Fund is used primarily to record financial activities of the District’s child nutrition program.

Community Service Special Revenue Fund – The Community Service Special Revenue Fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, adult or early childhood programs, or other similar services.

Fiduciary Fund

Scholarship Custodial Fund – The Scholarship Custodial Fund is used to account for resources held by the District, in a custodial capacity for others, to provide college scholarships for graduating students. There is no requirement that any portion of these resources be preserved as capital.

E. Budgetary Information

The School Board adopts an annual budget for most governmental funds. The District does not adopt a budget for the Permanent Fund. The budget for each fund is prepared on the same basis of accounting as the fund financial statements. Legal budgetary control is at the fund level. Budgeted appropriations lapse at year-end.

Actual expenditures exceeded final appropriations in the current year by \$244,483, \$37,172, and \$40,500, in the Food Service Special Revenue Fund, Community Service Special Revenue Fund, and Debt Service Fund, respectively. These variances were funded by revenues in excess of budget and available fund balance.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Cash and Temporary Investments

Cash and temporary investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

Investments are generally stated at fair value, except for investments in certain external investment pools, which are stated at amortized cost. Short-term, highly liquid debt instruments (including commercial paper, bankers' acceptance, and U.S. Treasury and agency obligations) purchased with a remaining maturity of one year or less may also be reported at amortized cost. Investment income is accrued at the Balance Sheet date.

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 2 for the District's recurring fair value measurements as of year-end.

G. Receivables

When necessary, the District utilizes an allowance for uncollectible accounts to value its receivables. However, the District considers all of its current receivables to be collectible. The only receivables not expected to be fully collected within one year are delinquent property taxes receivable and a receivable from the St. Croix River Education District (SCRED), reported within due from other governmental units.

H. Inventories

Inventories are recorded using the consumption method of accounting and consist of purchased food and surplus commodities received from the federal government. Purchased food inventory is recorded at cost on a first-in, first-out basis. Surplus commodities are stated at standardized costs, as determined by the U.S. Department of Agriculture.

I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items are recorded as expenditures/expenses at the time of consumption.

J. Property Taxes

The majority of the District's revenue in the General Fund is determined annually by statutory funding formulas. The total revenue allowed by these formulas is allocated between property taxes and state aids by the Legislature, based on education funding priorities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Generally, property taxes are recognized as revenue by the District in the fiscal year that begins midway through the calendar year in which the tax levy is collectible. To help balance the state budget, the Minnesota Legislature utilizes a tool referred to as the “tax shift,” which periodically changes the District’s recognition of property tax revenue. The tax shift advance recognizes cash collected for the subsequent year’s levy as current year revenue, allowing the state to reduce the amount of aid paid to the District. Currently, the mandated tax shift recognizes \$67,274 of the property tax levy collectible in 2022 as revenue to the District in fiscal year 2021–2022. The remaining portion of the taxes collectible in 2022 is recorded as a deferred inflow of resources (property taxes levied for subsequent year).

Property tax levies are certified to the County Auditor in December of each year for collection from taxpayers in May and October of the following calendar year. In Minnesota, counties act as collection agents for all property taxes. The county spreads all levies over taxable property. Such taxes become a lien on property on the following January 1. The county generally remits taxes to the District at periodic intervals, as they are collected.

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is reported as a deferred inflow of resources (unavailable revenue) in the fund financial statements because it is not known to be available to finance the operations of the District.

K. Capital Assets

Capital assets that are purchased or constructed by the District are recorded at historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation. Leased capital assets are recorded based on the measurement of payments applicable to the lease term. The District defines capital assets as those with an initial, individual cost of \$2,500 or more, which benefit more than one fiscal year. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide financial statements, but are not reported in the governmental fund financial statements. Capital assets are depreciated/amortized using the straight-line method over their estimated useful lives. Since surplus assets are generally sold for an immaterial amount or scrapped when declared as no longer fit or needed for public school purposes by the District, no salvage value is taken into consideration for depreciation/amortization purposes. Useful lives vary from 20 to 50 years for land improvements and buildings and 5 to 15 years for furniture and equipment. Leased assets are amortized over the term of the lease or over the useful life of the applicable asset class previously described, if future ownership is anticipated. Land is not depreciated.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks or parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

L. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. If material, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period as other financing sources or uses, respectively. The face amount of debt issued is reported as other financing sources.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Compensated Absences

- 1. Vacation Pay** – The District compensates certain employees upon termination of employment for unused vacation. The full-time employees of the District earn vacation based upon the number of completed years of service. Since teachers do not receive vacation benefits, there is not a material vacation liability to accrue as of June 30, 2022.
- 2. Sick Pay** – Substantially all district employees are entitled to sick leave at various rates. Unused sick leave is not paid out upon termination; therefore, no liability is reported as of year-end.

N. State-Wide Pension Plans

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and the Teachers Retirement Association (TRA) and additions to/deductions from the PERA's and the TRA's fiduciary net positions have been determined on the same basis as they are reported by the PERA and the TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The TRA has a special funding situation created by direct aid contributions made by the state of Minnesota, City of Minneapolis, and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. A second direct aid source is from the state of Minnesota for the merger of the Duluth Teachers Retirement Fund Association in 2015.

O. Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, statements of financial position or balance sheets will sometimes report separate sections for deferred outflows or inflows of resources. These separate financial statement elements represent a consumption or acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) or an inflow of financial resources (revenue) until then.

The District reports deferred outflows and inflows of resources related to pensions and other post-employment benefit (OPEB) plans reported in the government-wide Statement of Net Position. These deferred outflows and inflows result from differences between expected and actual economic experience, changes in actuarial assumptions, difference between projected and actual investment earnings, changes in proportion, and contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension and OPEB standards.

Property taxes levied for subsequent years, which represent property taxes received or reported as a receivable before the period for which the taxes are levied, are reported as a deferred inflow of resources in both the government-wide Statement of Net Position and the governmental funds Balance Sheet. Property taxes levied for subsequent years are deferred and recognized as an inflow of resources in the government-wide financial statements in the year for which they are levied and in the governmental fund financial statements during the year for which they are levied, if available.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Unavailable revenue from long-term receivables and property taxes receivable, arises under a modified accrual basis of accounting and is reported only in the governmental funds Balance Sheet. The District has recorded a long-term receivable and delinquent property taxes not collected within 60 days of year-end, which are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available.

P. Net Position

In the government-wide and fiduciary fund financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is displayed in three components:

- **Net Investment in Capital Assets** – Consists of capital assets, net of accumulated depreciation and amortization, reduced by any outstanding debt attributable to acquire capital assets.
- **Restricted Net Position** – Consists of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- **Unrestricted Net Position** – All other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

The District applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

Q. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- **Nonspendable** – Consists of amounts that are not in spendable form, such as prepaid items, inventory, nonspendable portions in the Permanent Fund, and other long-term assets.
- **Restricted** – Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- **Committed** – Consists of internally imposed constraints that are established by resolution of the School Board. Those committed amounts cannot be used for any other purpose unless the School Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- **Assigned** – Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to School Board resolution, the District’s business manager and superintendent are authorized to establish assignments of fund balance.
- **Unassigned** – The residual classification for the General Fund, which also reflects negative residual amounts in other funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

When both restricted and unrestricted resources are available for use, it is the District's policy to first use restricted resources, then use unrestricted resources as they are needed.

When committed, assigned, or unassigned resources are available for use, it is the District's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

R. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements during the reporting period. Actual results could differ from those estimates.

S. Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers' compensation, for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reductions in the District's insurance coverage in the current year.

T. Prior Period Comparative Financial Information/Reclassification

The basic financial statements include certain prior year partial comparative information in total, but not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the prior year, from which the summarized information was derived. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

U. Change in Accounting Principle

During the year ended June 30, 2022, the District implemented GASB Statement No. 87, *Leases*. This statement included major changes in recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right-to-use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Certain amounts necessary to fully restate fiscal year 2021 financial information are not determinable; therefore, prior year comparative amounts have not been restated. The implementation of this new GASB statement in the current year resulted in the District reporting a new category of capital assets and long-term liability, but did not require a restatement of net position in the current year. See Note 3 and Note 4 for additional details on this change in the current year.

NOTE 2 – DEPOSITS AND INVESTMENTS

A. Components of Cash and Investments

Cash and investments at year-end consist of the following:

Deposits	\$	633,561
Investments		<u>7,333,353</u>
Total deposits and investments	\$	<u><u>7,966,914</u></u>

Cash and investments are presented in the financial statements as follows:

Statement of Net Position		
Cash and temporary investments	\$	7,742,440
Statement of Fiduciary Net Position		
Cash and temporary investments		
Scholarship Custodial Fund		<u>224,474</u>
Total deposits and investments	\$	<u><u>7,966,914</u></u>

B. Deposits

In accordance with applicable Minnesota Statutes, the District maintains deposits at depository banks authorized by the School Board, including checking accounts, savings accounts, and nonnegotiable certificates of deposit.

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated “A” or better; revenue obligations rated “AA” or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The District’s deposit policies do not further limit depository choices.

At year-end, the carrying amount of the District’s deposits was \$633,561, while the balance on the bank records was \$745,355. At June 30, 2022, all deposits were fully covered by federal deposit insurance, surety bonds, or by collateral held by the District’s agent in the District’s name.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

C. Investments

The District had the following investments at year-end:

Investment Type	Credit Risk		Fair Value Measurements	Interest Risk – Maturity Duration	Total
	Rating	Agency		in Years Less Than 1	
Investment pools/mutual funds					
Minnesota School District					
Liquid Asset Fund					
Liquid Class	AAA	S&P	Amortized Cost	N/A	\$ 31,995
MAX Class	AAA	S&P	Amortized Cost	N/A	5,301,358
Term Series	AAA	Fitch	Amortized Cost	\$ 2,000,000	2,000,000
Total					<u>\$ 7,333,353</u>

N/A – Not Applicable

The Minnesota School District Liquid Asset Fund (MSDLAF) is regulated by Minnesota Statutes and is an external investment pool, which is not registered with the Securities and Exchange Commission. The District's investment in this pool is measured at the net asset value per share provided by the pool, which is based on an amortized cost method that approximates fair value. For MSDLAF investments, there are no unfunded commitments, redemption frequency is daily, and there is no redemption notice for the Liquid Class; the redemption notice period is 14 days for the MAX Class, with the exception of direct investments of funds distributed by the state of Minnesota. MSDLAF Term Series investments have a maturity of 60 days to 1 year. Withdrawals prior to the restriction periods may be subject to a penalty and there is a 24-hour hold on all requests for redemptions.

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the District would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in investment pools and money markets are not evidenced by securities that exist in physical or book entry form and, therefore, are not subject to custodial credit risk disclosures. Although the District's investment policies do not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The District's investment policies do not limit the maturities of investments; however, when purchasing investments, the District considers such things as interest rates and cash flow needs.

Concentration Risk – This is the risk associated with investing a significant portion of the District's investments (considered 5 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools, and mutual funds. The District's investment policies do not address concentration risk.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the District’s investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated “A” or better; revenue obligations rated “AA” or better; general obligations of the Minnesota Housing Finance Agency rated “A” or better; bankers’ acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a “depository” by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000; that are a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York; or certain Minnesota securities broker-dealers. The District’s investment policies do not further restrict investing in specific financial instruments.

NOTE 3 – CAPITAL ASSETS

Capital assets activity for the year ended is as follows:

	Balance – Beginning of Year	Change in Accounting Principle*	Additions	Deletions	Balance – End of Year
Capital assets, not depreciated/amortized					
Land	\$ 235,734	\$ –	\$ –	\$ –	\$ 235,734
Capital assets, depreciated/amortized					
Land improvements	1,693,180	–	50,700	–	1,743,880
Buildings	27,101,797	–	5,000	–	27,106,797
Furniture and equipment	3,050,798	–	49,761	–	3,100,559
Furniture and equipment – leased	–	192,766	–	–	192,766
Total capital assets, depreciated/amortized	31,845,775	192,766	105,461	–	32,144,002
Less accumulated depreciation/amortization for					
Land improvements	(1,121,047)	–	(44,484)	–	(1,165,531)
Buildings	(13,815,452)	–	(562,758)	–	(14,378,210)
Furniture and equipment	(2,102,714)	–	(174,040)	–	(2,276,754)
Furniture and equipment – leased	–	–	(54,971)	–	(54,971)
Total accumulated depreciation/amortization	(17,039,213)	–	(836,253)	–	(17,875,466)
Net capital assets, depreciated/amortized	14,806,562	192,766	(730,792)	–	14,268,536
Total capital assets, net	\$ 15,042,296	\$ 192,766	\$ (730,792)	\$ –	\$ 14,504,270

* The change in accounting principle was for new lease standard requirements in the current year.

Depreciation/amortization expense was charged to the following governmental functions:

Elementary and secondary regular instruction	\$ 26,691
Vocational education instruction	1,440
Instructional support services	57,776
Pupil support services	82,245
Community service	4,069
Depreciation/amortization not included in other functions	664,032
Total depreciation/amortization expense	\$ 836,253

NOTE 4 – LONG-TERM LIABILITIES

A. General Obligation Bonds Payable

The District currently has the following general obligation bonds payable outstanding:

<u>Issue</u>	<u>Issue Date</u>	<u>Interest Rate</u>	<u>Face/Par Value</u>	<u>Final Maturity</u>	<u>Principal Outstanding</u>
2015 Refunding Bonds	11/12/2015	2.00–3.00%	\$ 9,175,000	02/01/2026	\$ 4,970,000
2017 Facilities Maintenance Bonds	02/09/2017	3.00%	\$ 1,075,000	02/01/2027	<u>615,000</u>
Total general obligation bonds payable					<u><u>\$ 5,585,000</u></u>

These bonds were issued to finance acquisition, construction, and/or improvements of capital facilities, or to finance the retirement (refunding) of prior bond issues. Assets of the Debt Service Fund, together with scheduled future ad valorem tax levies, are dedicated for the retirement of these bonds. The annual future debt service levies authorized are equal to 105.0 percent of the principal and interest due each year. These levies are subject to reduction if fund balance amounts exceed limitations imposed by Minnesota law.

B. Financed Purchase Payable

In June 2012, the District entered into an agreement to finance the purchase of a building for \$1,930,000 on behalf of SCRED. The agreement bears an interest rate of 2.97 percent and a final maturity of February 1, 2027. The District makes semiannual payments through the General Fund. Also, in June 2012, the District entered into an agreement to sell the building to SCRED to purchase the building capitalized by SCRED at \$1,930,000. The agreement bears an interest rate of 2.97 percent and a final maturity of February 1, 2027. SCRED makes semiannual payments to the District. The terms of the sale between SCRED and the District are identical to the financed purchase payment terms, with the intent of the transactions to be hold harmless to the District in matching debt payments with receipts from SCRED. The District has reported \$763,046 in due from other governmental units in the General Fund that matches the remaining amount owed on this agreement.

C. Leases Payable

The District has obtained the use of certain technology equipment through lease financing agreements. The total amount of underlying lease assets by major classes and the related accumulated amortization is presented in Note 3 to the basic financial statements. Annual principal and interest on these agreements will be paid by the General Fund. The agreements are secured by the original equipment. The lessor may repossess the property and seek full recovery of the losses upon default. The District currently has the following leases payable outstanding:

<u>Lease Description</u>	<u>Issue Date</u>	<u>Interest Rate</u>	<u>Final Maturity</u>	<u>Principal Outstanding</u>
Technology equipment	03/11/2020	3.50%	07/01/2023	\$ 33,611
Technology equipment	09/01/2020	3.50%	07/05/2023	19,694
Technology equipment	06/05/2021	3.50%	07/05/2024	<u>82,138</u>
Total leases payable				<u><u>\$ 135,443</u></u>

NOTE 4 – LONG-TERM LIABILITIES (CONTINUED)

D. Other Long-Term Liabilities

The District offers a number of benefits to its employees, including: pensions and OPEB. The details of these various benefit liabilities are discussed elsewhere in these notes. Such benefits are financed primarily from the General Fund.

District employees participate in two state-wide, cost-sharing, multiple employer defined benefit pension plans administered by the PERA and the TRA. The following is a summary of the net pension liabilities, deferred outflows and inflows of resources, and pension expense reported for these plans as of and for the year ended June 30, 2022:

<u>Pension Plans</u>	<u>Net Pension Liabilities</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Pension Expense</u>
PERA	\$ 965,120	\$ 762,997	\$ 927,367	\$ (4,514)
TRA	2,945,249	1,822,032	5,552,010	90,750
Total	<u>\$ 3,910,369</u>	<u>\$ 2,585,029</u>	<u>\$ 6,479,377</u>	<u>\$ 86,236</u>

E. Minimum Debt Payments

Minimum annual principal and interest payments to maturity for general obligation bonds payable, financed purchase payable, and leases payable are as follows:

<u>Year Ending June 30,</u>	<u>General Obligation Bonds Payable</u>		<u>Financed Purchase Payable</u>		<u>Leases Payable</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2023	\$ 1,300,000	\$ 167,550	\$ 143,746	\$ 21,604	\$ 52,637	\$ 4,741
2024	1,345,000	128,550	148,047	17,303	54,479	2,898
2025	1,385,000	88,200	152,477	12,873	28,327	991
2026	1,425,000	46,650	157,039	8,311	–	–
2027	130,000	3,900	161,737	3,612	–	–
	<u>\$ 5,585,000</u>	<u>\$ 434,850</u>	<u>\$ 763,046</u>	<u>\$ 63,703</u>	<u>\$ 135,443</u>	<u>\$ 8,630</u>

F. Changes in Long-Term Liabilities

	<u>Balance – Beginning of Year</u>	<u>Change in Accounting Principle*</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance – End of Year</u>	<u>Due Within One Year</u>
General obligation bonds payable	\$ 6,850,000	\$ –	\$ –	\$ 1,265,000	\$ 5,585,000	\$ 1,300,000
Unamortized premium/discount	398,911	–	–	88,935	309,976	–
Total bonds payable	7,248,911	–	–	1,353,935	5,894,976	1,300,000
Financed purchase payable	902,616	–	–	139,570	763,046	143,746
Leases payable	–	192,766	–	57,323	135,443	52,637
Net pension liability	6,522,914	–	907,047	3,519,592	3,910,369	–
Total OPEB liability	333,436	–	86,474	28,525	391,385	39,857
	<u>\$ 15,007,877</u>	<u>\$ 192,766</u>	<u>\$ 993,521</u>	<u>\$ 5,098,945</u>	<u>\$ 11,095,219</u>	<u>\$ 1,536,240</u>

* The change in accounting principle was for new lease standard requirements in the current year.

NOTE 5 – FUND BALANCES

The following is a breakdown of equity components of governmental funds, which are defined earlier in the report. When applicable, certain restrictions which have an accumulated deficit balance at June 30 are included in unassigned fund balance in the District’s financial statements, in accordance with accounting principles generally accepted in the United States of America. A description of these deficit balance restrictions is included herein since the District has specific authority to future resources for such deficits.

A. Classifications

At year-end, a summary of the District’s governmental fund balance classifications is as follows:

	General Fund	Debt Service Fund	Permanent Fund	Nonmajor Funds	Total
Nonspendable					
Inventory	\$ –	\$ –	\$ –	\$ 4,399	\$ 4,399
Restricted principal	–	–	511,000	–	511,000
Total nonspendable	–	–	511,000	4,399	515,399
Restricted					
Student activities	164,532	–	–	–	164,532
Staff development	163,852	–	–	–	163,852
Operating capital	208,042	–	–	–	208,042
Learning and development	393,971	–	–	–	393,971
Gifted and talented	22,891	–	–	–	22,891
Basic skills programs	520,453	–	–	–	520,453
Long-term facilities maintenance	123,372	–	–	–	123,372
Medical Assistance	35,205	–	–	–	35,205
Debt service	–	306,809	–	–	306,809
Pool center operations	–	–	12,458	–	12,458
Food service	–	–	–	132,678	132,678
Community education	–	–	–	73,907	73,907
Early childhood family education	–	–	–	12,891	12,891
Total restricted	1,632,318	306,809	12,458	219,476	2,171,061
Assigned					
Q Comp	13,026	–	–	–	13,026
Capital projects	2,000,000	–	–	–	2,000,000
Total assigned	2,013,026	–	–	–	2,013,026
Unassigned					
Unassigned – safe schools levy deficit	(6,863)	–	–	–	(6,863)
Unassigned – school readiness deficit	–	–	–	(39,962)	(39,962)
Unassigned	1,859,535	–	–	–	1,859,535
Total unassigned	1,852,672	–	–	(39,962)	1,812,710
Total	<u>\$ 5,498,016</u>	<u>\$ 306,809</u>	<u>\$ 523,458</u>	<u>\$ 183,913</u>	<u>\$ 6,512,196</u>

B. Minimum Fund Balance Policy

The School Board has formally adopted a fund balance policy regarding the minimum fund balance. The policy establishes that the District will strive to maintain a minimum unrestricted General Fund balance (consisting of assigned and unassigned fund balances) of 15.0 percent of the General Fund expenditures for each fiscal year. If the balance will decrease below 15.0 percent, the administration shall apprise the School Board of this prior to budget adoption. If the balance will decrease below 10.0 percent, the School Board will initiate certain measures to ensure that the balance does not fall below this level.

At June 30, 2022, the unrestricted fund balance (consisting of assigned and unassigned fund balances, without restricted account deficits) of the General Fund was 35.5 percent of fiscal 2022 actual expenditures.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE

A. Plan Descriptions

The District participates in the following cost-sharing, multiple-employer defined benefit pension plans administered by the PERA and the TRA. The PERA's and the TRA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes. The PERA's and the TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

1. General Employees Retirement Fund (GERF)

The PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356.

Certain full-time and part-time employees of the District other than teachers are covered by the GERF. GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Teachers Retirement Association (TRA)

The TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. The TRA is a separate statutory entity, administered by a Board of Trustees. The Board of Trustees consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul Public Schools or Minnesota State Colleges and Universities (MnSCU)). Educators first hired by MnSCU may elect either TRA coverage or coverage through the Defined Contribution Plan administered by Minnesota State.

B. Benefits Provided

The PERA and the TRA provide retirement, disability, and death benefits. Benefit provisions are established by state statutes and can only be modified by the State Legislature.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

1. GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for the PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated Plan members is 1.2 percent for each of the first 10 years of service and 1.7 percent for each additional year. Under Method 2, the accrual rate for Coordinated Plan members is 1.7 percent for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at age 66.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Benefit increases are provided to benefit recipients each January. The post-retirement increase is equal to 50.0 percent of the cost of living adjustment announced by the Social Security Administration, with a minimum increase of at least 1.0 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase, will receive the full increase. For recipients receiving the annuity or benefit for at least one month, but less than a full year as of the June 30 before the effective date of the increase, will receive a reduced prorated increase. For members retiring on January 1, 2024 or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

2. TRA Benefits

The TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statutes and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for the TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier I Benefits

<u>Step-Rate Formula</u>	<u>Percentage per Year</u>
Basic Plan	
First 10 years of service	2.2 %
All years after	2.7 %
Coordinated Plan	
First 10 years if service years are up to July 1, 2006	1.2 %
First 10 years if service years are July 1, 2006 or after	1.4 %
All other years of service if service years are up to July 1, 2006	1.7 %
All other years of service if service years are July 1, 2006 or after	1.9 %

With these provisions:

- (a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- (b) Three percent per year early retirement reduction factor for all years under normal retirement age.
- (c) Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for Coordinated Plan members and 2.7 percent per year for Basic Plan members applies. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated Plan members and 2.7 percent per year for Basic Plan members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statutes. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree—no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits, but not yet receiving them, are bound by the plan provisions in effect at the time they last terminated their public service.

C. Contributions

Minnesota Statutes set the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

1. GERF Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Coordinated Plan members were required to contribute 6.5 percent of their annual covered salary in fiscal year 2022 and the District was required to contribute 7.5 percent for Coordinated Plan members. The District's contributions to the GERF for the year ended June 30, 2022, were \$145,669 The District's contributions were equal to the required contributions as set by state statutes.

2. TRA Contributions

Minnesota Statutes, Chapter 354 sets the rates for employer and employee contributions. Rates for each fiscal year were:

	Year Ended June 30,					
	2020		2021		2022	
	Employee	Employer	Employee	Employer	Employee	Employer
Basic Plan	11.00 %	11.92 %	11.00 %	12.13 %	11.00 %	12.34 %
Coordinated Plan	7.50 %	7.92 %	7.50 %	8.13 %	7.50 %	8.34 %

The District's contributions to the TRA for the plan's fiscal year ended June 30, 2022, were \$366,311. The District's contributions were equal to the required contributions for each year as set by state statutes.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

The following is a reconciliation of employer contributions in the TRA’s Annual Comprehensive Financial Report Statement of Changes in Fiduciary Net Position to the employer contributions used in the Schedule of Employer and Nonemployer Pension Allocations:

	<i>in thousands</i>
Employer contributions reported in the TRA’s Annual Comprehensive Financial Report Statement of Changes in Fiduciary Net Position	\$ 448,829
Add employer contributions not related to future contribution efforts	379
Deduct the TRA’s contributions not included in allocation	<u>(538)</u>
Total employer contributions	448,670
Total nonemployer contributions	<u>37,840</u>
Total contributions reported in the Schedule of Employer and Nonemployer Allocations	<u>\$ 486,510</u>

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations, due to the number of decimal places used in the allocations. The TRA has rounded percentage amounts to the nearest ten thousandths.

D. Pension Costs

1. GERF Pension Costs

At June 30, 2022, the District reported a liability of \$965,120 for its proportionate share of the General Employees Fund’s net pension liability. The District’s net pension liability reflected a reduction due to the state of Minnesota’s contribution of \$16.0 million. The state of Minnesota is considered a nonemployer contributing entity and the state’s contribution meets the definition of a special funding situation. The state of Minnesota’s proportionate share of the net pension liability associated with the District totaled \$29,485. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportionate share of the net pension liability was based on the District’s contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2020, through June 30, 2021, relative to the total employer contributions received from all of the PERA’s participating employers. The District’s proportionate share was 0.0226 percent at the end of the measurement period and 0.0234 percent for the beginning of the period.

District’s proportionate share of the net pension liability	\$ 965,120
State’s proportionate share of the net pension liability associated with the District	\$ 29,485

For the year ended June 30, 2022, the District recognized negative pension expense of (\$6,893) for its proportionate share of the GERF’s pension expense. In addition, the District recognized an additional \$2,379 as pension expense (and grant revenue) for its proportionate share of the state of Minnesota’s pension expense for the annual \$16 million contribution.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

At June 30, 2022, the District reported its proportionate share of the GERF’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 5,929	\$ 29,657
Changes in actuarial assumptions	589,284	21,865
Net collective difference between projected and actual investment earnings	–	832,938
Changes in proportion	22,115	42,907
District’s contributions to the GERF subsequent to the measurement date	<u>145,669</u>	<u>–</u>
Total	<u><u>\$ 762,997</u></u>	<u><u>\$ 927,367</u></u>

The \$145,669 reported as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Pension Expense Amount</u>
2023	\$ (49,127)
2024	\$ (14,586)
2025	\$ (18,350)
2026	\$ (227,976)

2. TRA Pension Costs

At June 30, 2022, the District reported a liability of \$2,945,249 for its proportionate share of the TRA’s net pension liability. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on the District’s contributions to the TRA in relation to total system contributions, including direct aid from the state of Minnesota, City of Minneapolis, and Minneapolis School District. The District’s proportionate share was 0.0673 percent at the end of the measurement period and 0.0693 percent for the beginning of the period.

The pension liability amount reflected a reduction due to direct aid provided to the TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

District’s proportionate share of the net pension liability	\$ 2,945,249
State’s proportionate share of the net pension liability associated with the District	\$ 248,480

For the year ended June 30, 2022, the District recognized pension expense of \$93,532. It also recognized \$2,782 as a decrease to pension expense for the support provided by direct aid.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

At June 30, 2022, the District had deferred resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 82,141	\$ 82,430
Changes in actuarial assumptions	1,079,413	2,628,348
Net collective difference between projected and actual investment earnings on pension plan investments	–	2,460,301
Changes in proportion	294,167	380,931
District’s contributions to the TRA subsequent to the measurement date	<u>366,311</u>	<u>–</u>
Total	<u>\$ 1,822,032</u>	<u>\$ 5,552,010</u>

A total of \$366,311 reported as deferred outflows of resources related to pensions resulting from district contributions to the TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Pension Expense Amount</u>
2023	\$ (1,981,937)
2024	\$ (1,545,597)
2025	\$ (342,855)
2026	\$ (409,170)
2027	\$ 183,270

E. Long-Term Expected Return on Investment

The State Board of Investment, which manages the investments of the PERA and the TRA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

The target allocation and best-estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>		<u>Long-Term Expected Real Rate of Return</u>
	<u>GERF</u>	<u>TRA</u>	
Domestic equity	33.50 %	35.50 %	5.10 %
International equity	16.50	17.50	5.30 %
Private markets	25.00	25.00	5.90 %
Fixed income	25.00	20.00	0.75 %
Unallocated cash	–	2.00	– %
Total	<u>100.00 %</u>	<u>100.00 %</u>	

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

F. Actuarial Methods and Assumptions

The total pension liability in the June 30, 2021 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Assumptions	GERF	TRA
Inflation	2.25%	2.50%
Wage growth rate		2.85% before July 1, 2028, and 3.25% thereafter
Projected salary increase	3.00%	
Active member payroll growth		2.85% to 8.85% before July 1, 2028, and 3.25% to 9.25% thereafter
Investment rate of return	6.50%	7.00%

1. GERF

The long-term rate of return on pension plan investments used in the determination of the total liability is 6.50 percent. This assumption is based on a review of inflation and investments return assumptions from a number of national investment consulting firms. The review provided a range of return investment return rates deemed to be reasonable by the actuary. An investment return of 6.50 percent was deemed to be within that range of reasonableness for financial reporting purposes.

Inflation is assumed to be 2.25 percent for the GERF Plan. Benefit increases after retirement are assumed to be 1.25 percent for the GERF Plan.

Salary growth assumptions in the GERF Plan range in annual increments from 10.25 percent after one year of service to 3.00 percent after 29 years of service, and 6.00 percent per year thereafter.

Mortality rates for the GERF Plan are based on the Pub-2010 General Employee Mortality Table. The table is adjusted slightly to fit the PERA's experience.

Actuarial assumptions for the GERF Plan are reviewed every four years. The most recent four-year experience study for the GERF Plan was completed in 2019. The assumption changes were adopted by the Board and became effective with the July 1, 2020 actuarial valuation.

2. TRA

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants for all plans were based on RP-2014 tables for the TRA for males and females, as appropriate, with slight adjustments to fit the TRA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.00 percent for January 2020 through January 2023, then increasing by 0.10 percent each year, up to 1.50 percent annually.

Actuarial assumptions for the TRA Plan were based on the results of actuarial experience studies. The most recent experience study in the TRA Plan was completed in 2015, with economic assumptions updated in 2017.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

The following changes in actuarial assumptions occurred in 2021:

1. GERF

CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2. TRA

CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return assumption was changed from 7.50 percent to 7.00 percent.

G. Discount Rate

1. GERF

The discount rate used to measure the total pension liability in 2021 was 6.50 percent. The discount rate used to measure the total pension liability at the prior measurement date was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the GERF was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

2. TRA

The discount rate used to measure the total pension liability was 7.00 percent. The discount rate used to measure the total pension liability at the prior measurement date was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2021 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

H. Pension Liability Sensitivity

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate</u>	<u>Current Discount Rate</u>	<u>1% Increase in Discount Rate</u>
GERF discount rate	5.50%	6.50%	7.50%
District's proportionate share of the GERF net pension liability	\$ 1,968,355	\$ 965,120	\$ 141,907
TRA discount rate	6.00%	7.00%	8.00%
District's proportionate share of the TRA net pension liability	\$ 5,949,547	\$ 2,945,249	\$ 481,486

I. Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the internet at www.mnpera.org.

Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That report can be obtained at www.minnesotatra.org, by writing to the TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000; or by calling 651-296-2409 or 800-657-3669.

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN

A. Plan Description

The District provides post-employment benefits to certain eligible employees through the OPEB Plan, a single-employer defined benefit plan administered by the District. Management of the plan is vested with the School Board of the District. All post-employment benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a separate financial report.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

B. Benefits Provided

All retirees of the District upon retirement have the option under state law to continue their medical insurance coverage through the District. Retirees must pay the full district premium rate for their coverage.

The District is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees until the retiree reaches Medicare eligibility, whether the premiums are paid by the District or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an “implicit rate subsidy.” This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the District’s younger and statistically healthier active employees.

C. Contributions

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the District. The District’s contributions in the current year totaled \$39,857 as required on a pay-as-you-go basis to finance current year benefits as described in the previous section.

D. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	9
Active plan members	<u>139</u>
Total members	<u><u>148</u></u>

E. Total OPEB Liability of the District

The District’s total OPEB liability of \$391,385 as of year-end was measured as of July 1, 2021, and was determined by an actuarial valuation as of that date.

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

F. Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2021, using the entry-age method, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate	2.10%
20-year municipal bond yield	2.10%
Inflation rate	2.00%
Healthcare trend rate	6.50% grading to 5.00% over 6 years and then to 4.00% over the next 48 years

Since the plan is not funded by an irrevocable trust, the discount rate is equal to the 20-year municipal bond yield.

Mortality rates were based on the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2020 Generational Improvement Scale.

The retirement and withdrawal assumptions used to value GASB Statement No. 75 liabilities are similar to those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

Economic assumptions are based on input from a variety of published sources of historical and projected future financial data. Each assumption was reviewed for reasonableness with the source information, as well as for consistency with the other economic assumptions.

G. Changes in the Total OPEB Liability

	<u>Total OPEB Liability</u>
Beginning balance	\$ 333,436
Changes for the year	
Service cost	30,898
Interest	8,404
Changes in actuarial assumptions	12,764
Plan changes	(2,257)
Differences between expected and actual experience	36,665
Benefit payments	<u>(28,525)</u>
Total net changes	<u>57,949</u>
Ending balance	<u>\$ 391,385</u>

Changes since the prior measurement date include the following:

- **Plan changes** – The principals no longer have an explicit post-employment subsidy.
- **Assumption changes** – The healthcare trend rates, mortality tables, salary increase rates for non-teachers, and withdrawal rates were updated.
- **Assumption changes** – The inflation rate was changed from 2.50 percent to 2.00 percent.
- **Assumption changes** – The discount rate was changed from 2.40 percent to 2.10 percent.

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

H. Total OPEB Liability Sensitivity to Discount and Healthcare Cost Trend Rate Changes

The following presents the total OPEB liability of the District, as well as what the District’s total OPEB liability would be if it were calculated using a discount rate that is 1.0 percentage point lower or 1.0 percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate</u>	<u>Current Discount Rate</u>	<u>1% Increase in Discount Rate</u>
OPEB discount rate	1.10%	2.10%	3.10%
Total OPEB liability	\$ 411,663	\$ 391,385	\$ 371,577

The following presents the total OPEB liability of the District, as well as what the District’s total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1.0 percentage point lower or 1.0 percentage point higher than the current healthcare cost trend rates:

	<u>1% Decrease in Healthcare Trend Rate</u>	<u>Healthcare Trend Rate</u>	<u>1% Increase in Healthcare Trend Rate</u>
OPEB healthcare trend rate	5.50% grading to 4.00%, then 3.00%	6.50% grading to 5.00%, then 4.00%	7.50% grading to 6.00%, then 5.00%
Total OPEB liability	\$ 359,001	\$ 391,385	\$ 429,337

I. OPEB Expense and Related Deferred Outflows of Resources and Deferred Inflows of Resources

For the current year ended, the District recognized OPEB expense of \$44,067. As of year-end, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 30,554	\$ 5,460
Changes in actuarial assumptions	17,720	3,505
District’s contributions subsequent to the measurement date	39,857	–
Total	<u>\$ 88,131</u>	<u>\$ 8,965</u>

A total of \$39,857 reported as deferred outflows of resources related to OPEB contributions, subsequent to the measurement date, will be recognized as a reduction of the total OPEB liability in the year ending June 30, 2023. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending June 30,</u>	<u>OPEB Expense Amount</u>
2023	\$ 7,022
2024	\$ 7,022
2025	\$ 7,024
2026	\$ 10,007
2027	\$ 8,234

NOTE 8 – COMMITMENTS AND CONTINGENCIES

A. Federal and State Programs

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

B. Legal Contingencies

The District has the usual and customary types of miscellaneous legal claims pending at year-end, mostly of a minor nature and usually covered by insurance carried for that purpose. Although the outcomes of these claims are not presently determinable, the District believes that the resolution of these matters will not have a material adverse effect on its financial position.

NOTE 9 – SUBSEQUENT EVENT

In July 2022, the District entered into two separate lease agreements for technology equipment. The first agreement calls for five annual payments of \$19,955, for a total payment amount of \$99,775 over the life of the agreement. The second agreement calls for four annual payments of \$26,576, for a total payment amount of \$106,304 over the life of the agreement. These expenditures will be financed from the General Fund.

INDEPENDENT SCHOOL DISTRICT NO. 139

Notes to Required Supplementary Information
June 30, 2022

PERA – GENERAL EMPLOYEES RETIREMENT FUND

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2020 CHANGES IN PLAN PROVISIONS

- Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020 through December 31, 2023, and zero percent thereafter. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years two through five, and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 Table to the Pub-2010 General Mortality Table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 Disabled Annuitant Mortality Table to the Pub-2010 General/Teacher Disabled Annuitant Mortality Table, with adjustments.
- The mortality improvement scale was changed from MP-2018 to MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100.00 percent joint and survivor option changed from 35.00 percent to 45.00 percent. The assumed number of married female new retirees electing the 100.00 percent joint and survivor option changed from 15.00 percent to 30.00 percent. The corresponding number of married new retirees electing the life annuity option was adjusted accordingly.

INDEPENDENT SCHOOL DISTRICT NO. 139

Notes to Required Supplementary Information (continued)
June 30, 2022

PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

2019 CHANGES IN PLAN PROVISIONS

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2017 to MP-2018.

2018 CHANGES IN PLAN PROVISIONS

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to zero percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year, with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio, to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044, and 2.50 percent per year thereafter, to 1.25 percent per year.

INDEPENDENT SCHOOL DISTRICT NO. 139

Notes to Required Supplementary Information (continued)
June 30, 2022

PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

2017 CHANGES IN PLAN PROVISIONS

- The state's contribution for the Minneapolis Employees Retirement Fund equals \$16.0 million in 2017 and 2018, and \$6.0 million thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21.0 million to \$31.0 million in calendar years 2019 to 2031. The state's contribution changed from \$16.0 million to \$6.0 million in calendar years 2019 to 2031.

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60.00 percent for vested and nonvested deferred members. The revised CSA loads are now zero percent for active member liability, 15.00 percent for vested deferred member liability, and 3.00 percent for nonvested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years, to 1.00 percent per year through 2044, and 2.50 percent per year thereafter.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035, and 2.50 percent per year thereafter, to 1.00 percent per year for all years.
- The assumed investment return was changed from 7.90 percent to 7.50 percent. The single discount rate was changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth, and 2.50 percent for inflation.

2015 CHANGES IN PLAN PROVISIONS

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Retirement Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892.0 million. Upon consolidation, state and employer contributions were revised; the state's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

2015 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2030, and 2.50 percent per year thereafter, to 1.00 percent per year through 2035, and 2.50 percent per year thereafter.

INDEPENDENT SCHOOL DISTRICT NO. 139

Notes to Required Supplementary Information (continued)
June 30, 2022

TEACHERS RETIREMENT ASSOCIATION (TRA)

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return assumption was changed from 7.50 percent to 7.00 percent.

2018 CHANGES IN PLAN PROVISIONS

- The cost of living adjustment (COLA) was reduced from 2.00 percent each January 1 to 1.00 percent, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.10 percent each year until reaching the ultimate rate of 1.50 percent on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit, are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.50 percent if the funded ratio was at least 90.00 percent for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.00 percent to 3.00 percent, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.50 percent to 7.50 percent, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years, (7.71 percent in 2018, 7.92 percent in 2019, 8.13 percent in 2020, 8.34 percent in 2021, 8.55 percent in 2022, and 8.75 percent in 2023). In addition, the employee contribution rate will increase from 7.50 percent to 7.75 percent on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return assumption was changed from 8.50 percent to 7.50 percent.
- The single discount rate changed from 5.12 percent to 7.50 percent.

INDEPENDENT SCHOOL DISTRICT NO. 139

Notes to Required Supplementary Information (continued)
June 30, 2022

TEACHERS RETIREMENT ASSOCIATION (TRA) (CONTINUED)

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The COLA was assumed to increase from 2.00 percent annually to 2.50 percent annually on July 1, 2045.
- The COLA was not assumed to increase to 2.50 percent, but remain at 2.00 percent for all future years.
- Adjustments were made to the CSA loads. The active load was reduced from 1.40 percent to zero percent, the vested inactive load increased from 4.00 percent to 7.00 percent, and the nonvested inactive load increased from 4.00 percent to 9.00 percent.
- The investment return assumption was changed from 8.00 percent to 7.50 percent.
- The price inflation assumption was lowered from 2.75 percent to 2.50 percent.
- The payroll growth assumption was lowered from 3.50 percent to 3.00 percent.
- The general wage growth assumption was lowered from 3.50 percent to 2.85 percent for 10 years, followed by 3.25 percent thereafter.
- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.
- The single discount rate changed from 4.66 percent to 5.12 percent.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The single discount rate was changed from 8.00 percent to 4.66 percent.

2015 CHANGES IN PLAN PROVISIONS

- The Duluth Teachers Retirement Fund Association was merged into the TRA on June 30, 2015.

2015 CHANGES IN ACTUARIAL ASSUMPTIONS

- The annual COLA for the June 30, 2015 valuation assumed 2.00 percent. The prior year valuation used 2.00 percent, with an increase to 2.50 percent commencing in 2034.
- The discount rate used to measure the total pension liability was 8.00 percent. This is a decrease from the discount rate at the prior measurement date of 8.25 percent.

INDEPENDENT SCHOOL DISTRICT NO. 139

Notes to Required Supplementary Information (continued)
June 30, 2022

OTHER POST-EMPLOYMENT BENEFITS PLAN

2021 CHANGES IN PLAN PROVISIONS

- The principals no longer have an explicit post-employment subsidy.

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The healthcare trend rates, mortality tables, salary increase rates for non-teachers, and withdrawal rates were updated.
- The inflation rate was changed from 2.50 percent to 2.00 percent.
- The discount rate was changed from 2.40 percent to 2.10 percent.

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 3.10 percent to 2.40 percent.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality tables, medical trend rates, and salary scale assumptions were updated.
- The discount rate was changed from 3.40 percent to 3.10 percent.

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The healthcare trend rates were changed to better anticipate short-term and long-term medical increases.
- The mortality table was updated from RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale to the RP-2014 White Collar Mortality Tables with MP-2016 Generational Improvement Scale.
- The discount rate was changed from 3.50 percent to 3.40 percent.

2017 CHANGES IN METHODS

- The actuarial cost method was changed from projected unit credit to entry-age as prescribed by GASB Statement No. 75.
- An average claim cost with different aging factors was used in the prior valuation to determine claims costs. For this valuation, an aging table was applied to the average age 65 annual claims amount to derive the claims costs at all the possible retirement ages.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the School Board and Management of
Independent School District No. 139
Rush City, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 139, Rush City, Minnesota (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 3, 2023.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as findings 2022-001 and 2022-002 that we consider to be material weaknesses.

(continued)

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

DISTRICT'S RESPONSES TO FINDINGS

Government Auditing Standards requires the auditor to perform limited procedures on the District's responses to the findings identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The District's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL
CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the School Board and Management of
Independent School District No. 139
Rush City, Minnesota

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

OPINION ON EACH MAJOR FEDERAL PROGRAM

We have audited Independent School District No. 139's, Rush City, Minnesota (the District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the Summary of Audit Results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major programs for the year ended June 30, 2022.

BASIS FOR OPINION ON EACH MAJOR FEDERAL PROGRAM

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance requirements referred to above.

(continued)

RESPONSIBILITIES OF MANAGEMENT FOR COMPLIANCE

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF COMPLIANCE

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance, but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

OTHER MATTERS

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying Schedule of Findings and Questioned Costs as finding 2022-003. Our opinion on each major federal program is not modified with respect to this matter.

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the noncompliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs. The District's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

(continued)

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify one deficiency in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding 2022-004 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the internal control over compliance findings identified in our audit described in the accompanying Schedule of Findings and Questioned Costs. The District's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR’S REPORT
ON MINNESOTA LEGAL COMPLIANCE

To the School Board and Management of
Independent School District No. 139
Rush City, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 139, Rush City, Minnesota (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated October 3, 2023.

MINNESOTA LEGAL COMPLIANCE

In connection with our audit, we noted that the District failed to comply with the provisions of the contracting – bid laws, miscellaneous provisions, and uniform financial accounting and reporting standards sections of the *Minnesota Legal Compliance Audit Guide for School Districts*, promulgated by the State Auditor pursuant to Minnesota Statutes § 6.65, insofar as they relate to accounting matters as described in the Schedule of Findings and Questioned Costs as findings 2022-005, 2022-006, and 2022-007. Also, in connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the depositories of public funds and public investments, conflicts of interest, public indebtedness, and claims and disbursements sections of the *Minnesota Legal Compliance Audit Guide for School Districts*, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District’s noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

DISTRICT’S RESPONSES TO FINDINGS

Government Auditing Standards requires the auditor to perform limited procedures on the District’s responses to the legal compliance findings identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The District’s responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this report is not suitable for any other purpose.

Schedule of Findings and Questioned Costs
Year Ended June 30, 2022

A. SUMMARY OF AUDIT RESULTS

This summary is formatted to provide federal granting agencies and pass-through agencies answers to specific questions regarding the audit of federal awards.

Financial Statements

What type of auditor’s report is issued? X Unmodified
 Qualified
 Adverse
 Disclaimer

Internal control over financial reporting:

Material weakness(es) identified? X Yes No

Significant deficiency(ies) identified? Yes X None reported

Noncompliance material to the financial statements noted? Yes X No

Federal Awards

Internal controls over major federal award programs:

Material weakness(es) identified? Yes X No

Significant deficiency(ies) identified? X Yes None reported

Type of auditor’s report issued on compliance for major programs?

U.S. Department of Agriculture – Child Nutrition Cluster Unmodified

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? X Yes No

Programs tested as major programs:

Program or Cluster	ALN No.
The U.S. Department of Agriculture – Child Nutrition Cluster consisting of:	
– National School Lunch Program	10.555
– COVID-19 – National School Lunch Program	10.555
– COVID-19 – School Breakfast Program	10.553
– Summer Food Service Program for Children	10.559

Threshold for distinguishing type A and B programs. \$ 750,000

Does the auditee qualify as a low-risk auditee? Yes X No

INDEPENDENT SCHOOL DISTRICT NO. 139

Schedule of Findings and Questioned Costs (continued)
Year Ended June 30, 2022

B. FINANCIAL STATEMENT FINDINGS IN INTERNAL CONTROL OVER FINANCIAL REPORTING

MATERIAL WEAKNESSES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

2022-001 Timeliness and Accuracy of Reconciliations

Criteria – Internal controls over financial reporting are intended to allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. To be effective, control procedures, such as periodic and year-end account and subledger reconciliations, must be performed regularly, accurately, and in a timely manner.

Condition – During the audit, we noted several instances where reconciliations prepared by Independent School District No. 139's (the District) staff were not being performed as timely as in the past, or were not reconciled to the District's general ledger and underlying records. In previous audits of the District, we have generally found the District's internal controls over financial reporting to be well designed, implemented, and functioning properly. In the current year, although the internal controls were still considered to be well designed, the effectiveness of some control procedures was diminished, due to a lack of timeliness and accuracy.

Questioned Costs – Not applicable.

Context – The condition was noted in several areas, including cash and investments, property tax and state aid receipts, capital assets, accrued liabilities, and other areas.

Repeat Finding – This is a current year and prior year finding.

Cause – The performance of these control procedures was delayed due to turnover in the District's business office staff.

Effect – This condition subjects the District to higher risk that misstatements could occur, due to errors or fraud, and not be prevented or detected in a timely manner.

Recommendation – We recommend that the District management review the internal controls over reconciliation of cash and other accounts, and ensure that periodic and year-end account reconciliations are completed timely and accurately.

View of Responsible Official and Planned Corrective Actions – The District agrees with the finding. The District intends to review policies, procedures, and transaction cycles, and work with the District's financial auditors to review specific weaknesses identified during the annual audit and actions needed to eliminate or mitigate this internal control weakness. The District has separately issued a Corrective Action Plan related to this finding.

INDEPENDENT SCHOOL DISTRICT NO. 139

Schedule of Findings and Questioned Costs (continued)
Year Ended June 30, 2022

B. FINANCIAL STATEMENT FINDINGS IN INTERNAL CONTROL OVER FINANCIAL REPORTING (CONTINUED)

MATERIAL WEAKNESSES IN INTERNAL CONTROL OVER FINANCIAL REPORTING (CONTINUED)

2022-002 Segregation of Duties

Criteria – Internal control over financial reporting.

Condition – The District has limited segregation of duties in several areas, including the processing of general disbursements, payroll transactions, investing activities, and general receipt entries.

Questioned Costs – Not applicable.

Context – The condition applies to multiple areas as noted above.

Repeat Finding – This is a current year and prior year finding.

Cause – The limited segregation of duties is primarily caused by the limited size of the District's business office staff.

Effect – One important element of internal accounting controls is an adequate segregation of duties such that no one individual have responsibility to execute a transaction, have physical access to the related assets, and have responsibility or authority to record the transaction. A lack of segregation of duties subjects the District to a higher risk that errors or fraud could occur and not be detected and corrected in a timely manner in the normal course of business.

Recommendation – We recommend that the District continue its efforts to segregate duties as best it can within the limits of what the District considers to be cost-beneficial.

View of Responsible Official and Planned Corrective Actions – The District agrees with the finding. The District intends to review policies, procedures, and transaction cycles, and work with the District's financial auditors to review specific weaknesses identified during the annual audit and actions needed to eliminate or mitigate this internal control weakness. The District has separately issued a Corrective Action Plan related to this finding.

INDEPENDENT SCHOOL DISTRICT NO. 139

Schedule of Findings and Questioned Costs (continued)
Year Ended June 30, 2022

C. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

REPORTABLE NONCOMPLIANCE WITH FEDERAL REPORTING REQUIREMENTS – ALL FEDERAL PROGRAMS AWARDED UNDER THE UNIFORM GUIDANCE

2022-003 Federal Reporting Deadline

Criteria – 2 CFR Part 200, Subpart F, §200.512(a)(1) requires the District’s audited Schedule of Expenditures Federal Awards (SEFA) and federal reporting package to be submitted to the federal audit clearinghouse within the earlier of 30 calendar days after the receipt of the auditor’s report(s), or 9 months after the end of the audit period.

Condition – The District’s audited SEFA and federal reporting package for the fiscal year ended June 30, 2022, were not submitted to the federal audit clearinghouse within nine months after the end of the audit period.

Questioned Costs – Not applicable.

Context – The District’s audited SEFA and federal reporting package for the fiscal year ended June 30, 2022, were not submitted to the federal audit clearinghouse by the federal reporting deadline.

Repeat Finding – This is a current year finding.

Cause – The completion of the District’s audited annual financial statements for the year ended June 30, 2022, which is a required component of the federal reporting package, was delayed beyond the nine-month deadline. Completion of the District’s audited annual financial statements was delayed due to turnover in the District’s business office staff.

Effect – The delay in the completion of the District’s financial audit for the year ended June 30, 2022, prevented the submission of the required information to the federal audit clearinghouse in a timely manner.

Recommendation – We recommend the District ensure the timely submission of its audited SEFA and federal reporting package to the federal audit clearinghouse in the future.

View of Responsible Official and Planned Corrective Actions – There is no disagreement with the audit finding. District management will ensure that all information required to comply with federal reporting requirements will be completed and submitted in a timely manner going forward. The District has separately issued a Corrective Action Plan related to this finding.

INDEPENDENT SCHOOL DISTRICT NO. 139

Schedule of Findings and Questioned Costs (continued)
Year Ended June 30, 2022

C. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (CONTINUED)

SIGNIFICANT DEFICIENCY IN INTERNAL CONTROL OVER COMPLIANCE – U.S. DEPARTMENT OF AGRICULTURE, PASSED THROUGH MINNESOTA DEPARTMENT OF EDUCATION, CHILD NUTRITION CLUSTER – FEDERAL ALN 10.553, 10.555, AND 10.559

2022-004 Internal Control Over Compliance with Federal Suspension and Debarment Requirements

Criteria – 2 CFR § 180 requires the District to establish and maintain effective internal control over compliance with requirements applicable to federal program expenditures, including suspension and debarment requirements applicable to the child nutrition cluster federal program.

Condition – During our audit, we noted the District did not have sufficient controls in place within its child nutrition cluster federal program to assure that it was not contracting for goods or services with parties that are suspended or debarred, or whose principals are suspended or debarred from participating in contracts involving the expenditures of federal program funds.

Questioned Costs – None. Our testing did not indicate any instances of noncompliance with these requirements.

Context – The District did not obtain the appropriate documentation for two of two vendors tested applicable to the child nutrition cluster to ensure the vendor was not suspended or debarred from participation in federal program contracts.

Repeat Finding – This is a current year finding.

Cause – This was an oversight by district personnel.

Effect – Noncompliance with the suspension and debarment requirements could result in the District expending federal funds with vendors that are not eligible to be parties to such transactions, which could be viewed as a violation of the award agreement.

Recommendation – We recommend that the District review its internal control procedures relating to suspension and debarment for the child nutrition federal program. Internal controls over compliance for this area should include verification that any vendor with which the District contracts for goods or services exceeding \$25,000 is not listed as suspended or debarred on the federal Excluded Parties List System website.

View of Responsible Official and Planned Corrective Actions – The District agrees with the finding. The District will review and update its policies and procedures relating to suspension and debarment for its federal programs to ensure compliance with the Uniform Guidance in the future. The District has separately issued a Corrective Action Plan related to this finding.

INDEPENDENT SCHOOL DISTRICT NO. 139

Schedule of Findings and Questioned Costs (continued)
Year Ended June 30, 2022

D. MINNESOTA LEGAL COMPLIANCE FINDINGS

2022-005 Timely Completion of Financial Statements

Criteria – Minnesota Statutes § 6.65, 123B.77, Subd. 3 requires that the District submit audited fund balance, revenue, and expenditure data to the Minnesota Department of Education annually by November 30, and audited financial statements by December 31.

Condition – The District did not meet the deadlines for submitting audited financial data and audited financial statements for the fiscal year ended June 30, 2022.

Questioned Costs – Not applicable.

Context – The District did not submit the audited financial data and audited financial statements by the statutory deadlines.

Repeat Finding – This is a current year and prior year finding.

Cause – This was due to turnover of the District’s business office staff.

Effect – The District was not in compliance with state submission deadlines.

Recommendation – We recommend that the District comply with state statutory submission requirements in the future.

View of Responsible Official and Planned Corrective Actions – The District agrees with the finding. The District will review and update its policies and procedures relating to financial report processes to ensure compliance with reporting deadlines in the future. The District has separately issued a Corrective Action Plan related to this finding.

2022-006 Unclaimed Property Report

Criteria – Minnesota Statutes § 345.41 and § 345.43.

Condition – Minnesota Statutes require unclaimed property held for more than three years (or one year for unpaid compensation) to be reported and paid or delivered to the state Commissioner of Commerce each year. This requirement was not met by the District for the current year.

Questioned Costs – Not applicable.

Context – The District did not file the unclaimed property report and remit the related unclaimed checks to the state Commissioner of Commerce in the current year.

Repeat Finding – This is a current year finding.

Cause – This was an oversight by district personnel.

D. MINNESOTA LEGAL COMPLIANCE FINDINGS (CONTINUED)

2022-006 Unclaimed Property Report (continued)

Effect – The District was not in compliance with state unclaimed property requirements.

Recommendation – We recommend that the District comply with state statutory unclaimed property requirements in the future.

View of Responsible Official and Planned Corrective Actions – The District agrees with the finding. The District will review its procedures relating to unclaimed property laws to ensure compliance in the future. The District has separately issued a Corrective Action Plan related to this finding.

2022-007 Group Insurance Request for Proposal

Criteria – Minnesota Statutes § 471.6161.

Condition – A District that provides group insurance for 25 or more employees shall request proposals from, and enter into, contracts with entities that in the judgment of a District are best qualified to provide coverage. The request for proposals shall be in writing and at a minimum shall include: coverage to be provided, criteria for evaluation of proposals, and the aggregate claims records for the appropriate period. Public notice of the request for proposals must be provided in a newspaper or trade journal at least 21 days before the final date for submitting proposals. The District did not provide sufficient support to ensure this statute for one group insurance contract was followed in the current year.

Questioned Costs – Not applicable.

Context – One contract tested was not in compliance. The noncompliant contract was health insurance.

Repeat Finding – This is a current year finding.

Cause – This was due to turnover of the District’s business office staff.

Effect – The District did not follow state statutes for group insurance request for proposals before entering into a new contract.

Recommendation – We recommend that the District review group insurance request for proposal procedures and obtain required documentation for future contracts.

View of Responsible Official and Planned Corrective Actions – The District agrees with the finding. The District will review its procedures relating to group insurance request for proposal to ensure compliance in the future. The District has separately issued a Corrective Action Plan related to this finding.
