530 IMMUNIZATION REQUIREMENTS

I. PURPOSE

The purpose of this policy is to require that all students receive the proper immunizations as mandated by law to ensure the health and safety of all students.

II. GENERAL STATEMENT OF POLICY

All students are required to provide proof of immunization, or appropriate documentation exempting the student from such immunization, and such other data necessary to ensure that the student is free from any communicable diseases, as a condition of enrollment.

III. STUDENT IMMUNIZATION REQUIREMENTS

- A. No student may be enrolled or remain enrolled, on a full-time, part-time, or shared-time basis, in any elementary or secondary school within the school district until the student or the student's parent or guardian has submitted to the designated school district administrator the required proof of immunization. Prior to the student's first date of attendance, the student or the student's parent or guardian shall provide to the designated school district administrator one of the following statements:
 - 1. a statement, from a physician, advanced practice registered nurse, physician assistant, or a public clinic which provides immunizations (hereinafter "medical statement"), affirming that the student received the immunizations required by law, consistent with medically acceptable standards; or
 - 2. a medical statement, affirming that the student received the primary schedule of immunizations required by law and has commenced a schedule of the remaining required immunizations, indicating the month and year each immunization was administered, consistent with medically acceptable standards.
- B. The statement of a parent or guardian of a student or an emancipated student may be substituted for the medical statement. If such a statement is substituted, this statement must indicate the month and year each immunization was administered. Upon request, the designated school district administrator will provide information to the parent or guardian of a student or an emancipated student of the dosages required for each vaccine according to the age of the student.
- C. The parent or guardian of persons receiving instruction in a home school shall submit one of the statements set forth in Section III.A. or III.B., above, or statement of immunization set forth in Section IV., below, to the superintendent of the school district by October 1 of the first year of their home schooling in Minnesota and the grade 7 year.
- D. When there is evidence of the presence of a communicable disease, or when required by any state

or federal agency and/or state or federal law, students and/or their parents or guardians may be required to submit such other health care data as is necessary to ensure that the student has received any necessary immunizations and/or is free of any communicable diseases. No student may be enrolled or remain enrolled in any elementary or secondary school within the school district until the student or the student's parent or guardian has submitted the required data.

- E. The school district may allow a student transferring into a school a maximum of 30 days to submit a statement specified in Section III.A. or III.B., above, or Section IV., below. Students who do not provide the appropriate proof of immunization or the required documentation related to an applicable exemption of the student from the required immunization within the specified time frames shall be excluded from school until such time as the appropriate proof of immunizations or exemption documentation has been provided.
- F. If a person who is not a Minnesota resident enrolls in a school district online learning course or program that delivers instruction to the person only by computer and does not provide any teacher or instructor contact time or require classroom attendance, the person is not subject to the immunization, statement, and other requirements of this policy.

IV. EXEMPTIONS FROM IMMUNIZATION REQUIREMENTS

Students will be exempt from the foregoing immunization requirements under the following circumstances:

- A. The parent or guardian of a minor student or an emancipated student submits a signed medical statement affirming that the immunization of the student is contraindicated for medical reasons or that laboratory confirmation of the presence of adequate immunity exists; or
- B. The parent or guardian of a minor student or an emancipated student submits his or her notarized statement stating the student has not been immunized because of the conscientiously held beliefs of the parent, guardian or student.

V. NOTICE OF IMMUNIZATION REQUIREMENTS

- A. The school district will develop and implement a procedure to:
 - 1. notify parents and students of the immunization and exemption requirements by use of a form approved by the Department of Health;
 - 2. notify parents and students of the consequence for failure to provide required documentation regarding immunizations;
 - 3. review student health records to determine whether the required information has been provided; and
 - 4. make reasonable arrangements to send a student home when the immunization requirements have not been met and advise the student and/or the student's parent or guardian of the conditions for re-enrollment.

[See Attachments A, B, C, and D.]

- B. The notice provided shall contain written information describing the exemptions from immunization as permitted by law. The notice shall be in a font size at least equal to the font size and style as the immunization requirements and on the same page as the immunization requirements.

VI. IMMUNIZATION RECORDS

- A. The school district will maintain a file containing the immunization records for each student in attendance at the school district for at least five years after the student attains the age of majority.
- B. Upon request, the school district may exchange immunization data with persons or agencies providing services on behalf of the student. Immunization data is private student data and disclosure of such data shall be governed by Policy 515 Protection and Privacy of Pupil Records.
- C. The designated school district administrator will assist a student and/or the student's parent or guardian in the transfer of the student's immunization file to the student's new school within 30 days of the student's transfer.
- D. Upon request of a public or private post-secondary educational institution, the designated school district administrator will assist in the transfer of the student's immunization file to the post-secondary educational institution.

VII. OTHER

Within 60 days of the commencement of each new school term, the school district will forward a report to the Commissioner of the Department of Education stating the number of students attending each school in the school district, including the number of students receiving instruction in a home school, the number of students who have not been immunized, and the number of students who received an exemption. The school district also will forward a copy of all exemption statements received by the school district to the Commissioner of the Department of Health.

Re: Immunizations

Dear Parent:

As you know, school begins on [date]. Before your child, [name of child], can be enrolled, however, we must receive proof that he/she has received immunization against a number of diseases as required by state law or is excepted therefrom. To date, we have no immunization records for your child nor a claim of exception.

Please complete the enclosed form verifying that [name of child] has received the required immunizations, consistent with medically acceptable standards and return the form to [name of school official], *before school begins*. By state law, we cannot allow [name of child] to stay in school longer than thirty days unless we have received proof that he/she has had the required immunizations or is excepted therefrom.

If you cannot submit a statement from a physician or public clinic regarding your elementary or secondary school child, you may submit your own statement on the enclosed form detailing the precise dosages given for each required immunization and the month and year each immunization was given. If you elect to submit your own statement in lieu of one from a health care provider, please contact [name of school official] at [telephone number] to determine the precise vaccinations required for your child, as the requirements vary according to the child's age.

If you are claiming an exception for medical reasons that an immunization is contraindicated or because of your conscientiously held beliefs, you must either submit a statement from a physician stating the immunization is contraindicated or you must submit a notarized statement, signed by you as the parent/guardian, or if the student is an emancipated person, by the emancipated person, stating that the student has not been immunized because of conscientiously held beliefs. The enclosed form may be used for this purpose.

If we do not receive proof of immunization or exception by [date], your child will be sent home from school and discharged from enrollment. It will then be necessary for you to re-enroll the child after immunization requirements have been met before the child can return to school. If you have any questions, please contact [name of school official] at [telephone number].

Thank you for your cooperation.

Very truly yours,

[School District Official]

Re: Immunizations

Dear Parent:

As you know, school began today. To date, we have no immunization records for your child nor any record of a request for an exception. In order for your child, [name of child], to remain enrolled, we must receive proof that he/she has received immunization against a number of diseases as required by state law or that he/she qualifies for one of the statutory exceptions. By this letter, we wish to verify that our records concerning your child are accurate and complete.

Please submit a statement on the enclosed form to [name of school official] from a physician or a public clinic verifying that [name of child] has received the required immunizations, consistent with medically acceptable standards. By state law, we cannot allow [name of child] to stay in school unless we have received proof that he/she has had the required immunizations or has satisfied one of the statutorily recognized exceptions.

If you cannot submit a statement from a physician or public clinic regarding your elementary or secondary school child, you may submit your own statement on the enclosed form detailing the precise dosages given for each required immunization and the month and year each immunization was given. If you elect to submit your own statement in lieu of one from a health care provider, please contact [name of school official] at [telephone number] to determine the precise vaccinations required for your child, as the requirements vary according to the child's age.

If you are claiming an exception for medical reasons that an immunization is contraindicated or because of your conscientiously held beliefs, you must either submit a statement from a physician stating the immunization is contraindicated or you must submit a notarized statement, signed by you as the parent/guardian, or if the student is an emancipated person by the emancipated person, stating that the student has not been immunized because of conscientiously held beliefs. The enclosed form may be used for this purpose.

If you have already submitted a statement to us, please indicate how the statement was submitted (i.e. hand-delivered, mailed), when it was delivered and to whom. It may be necessary for you to obtain a duplicate statement if the original cannot be found. If additional time to obtain a duplicate is required, please so indicate in your response.

If we do not receive proof of immunization or exception by [ten school days], your child will be sent home from school and discharged from enrollment. It will then be necessary for you to re-enroll the child after immunization requirements have been met before the child can return to school. If you have any questions, please contact [name of school official] at [telephone number].

Thank you for your cooperation.

Very truly yours,

[School District Official]

Re: Non-Enrollment for Lack of Immunization Proof

Dear Parent:

We are sending your child, [name of child], home today because we have not yet received proof that he or she has received appropriate immunizations or is excepted therefrom. Minnesota law does not allow us to enroll an elementary or secondary school student without proof that the student has received the required immunizations or is excepted therefrom.

As we advised earlier, State law and School District policy allow for a thirty-day grace period and a ten-day due process period during which your child may attend school. Those grace periods have now expired.

[Name of child] may re-enroll as soon as we have received appropriate proof of immunizations. If you have any questions about the proof or the immunizations required, please contact [name of school official] at [telephone number] as soon as possible.

We look forward to having [name of child] back in school soon.

Very truly yours,

[School District Official]

DISTRICT NOTES:

Previous notices sent on _____ by _____

Phone contacts on _____ by _____

Enter the dates for each vaccine your child has received to date. Specify the month, day, and year of each dose such as 01/01/2010.

Immunization Form

Name _____ Birthdate _____

Immunizations required for child care, early childhood programs, and school.

Vaccine	Birth to 6 months		12-24 months		At Kindergarten	At 7th grade	At 12th grade
Hepatitis B							
Diphtheria, Tetanus, Pertussis (DTaP, DT, Td)							
<i>Haemophilus influenzae</i> type b (Hib)							
Pneumococcal (PCV)							
Polio							
Measles, Mumps, Rubella (MMR)							
Chickenpox (varicella)							
Hepatitis A							
Tetanus, Diphtheria, Pertussis (Tdap)							
Meningococcal (MCV4)							

Minnesota law requires children enrolled in child care, early childhood education, or school to be immunized against certain diseases, unless the child is medically or non-medically exempt.

Instructions for parent or guardian:

- Fill out the dates in chronological order even if your child received a vaccine outside of the age/grade category that the box is in. Depending on the age of your child, they may not have received all vaccines; some boxes will be blank.
 - If you have a copy of your child's immunization history, you can attach a copy of it instead of completing the front of this form.
 - Your doctor or clinic can provide a copy of your child's immunization history. If you are missing or need information about your child's immunization history, talk to your doctor or call the Minnesota Immunization Information Connection (MIIC) at 651-201-3980 or 800-657-3970.
- Sign or get the signatures needed for the back of this form.
 - Document medical and/or non-medical exemptions in section 1.
 - Verify history of chickenpox (varicella) disease in section 2.
 - Provide consent to share immunization information (optional) in section 3.

Instructions: Complete section 1 to document a medical or non-medical exemption, section 2 to verify history of varicella disease, and section 3 to consent to share immunization information.

Name _____

1. Document a medical and/or non-medical exemption (A and/or B).

Place an X in the box to indicate a medical or non-medical exemption. If there are exemptions to more than one vaccine, mark each vaccine with an X.

Vaccine	Medical Exemption	Non-Medical Exemption
Diphtheria, Tetanus, and Pertussis		
Polio		
Measles, Mumps, Rubella		
<i>Haemophilus influenzae</i> type b		
Chickenpox (varicella)		
Pneumococcal		
Hepatitis A		
Hepatitis B		
Meningococcal		

A. Medical exemption: By my signature below, I confirm that this child should not receive the vaccines marked with an X in the table for medical reasons (contraindications) or because there is laboratory confirmation that they are already immune.

Signature: _____ Date: _____
(of health care practitioner*)

2. History of chickenpox (varicella) disease. This child had chickenpox in the month and year _____

My signature below means that I confirm that this child does not need chickenpox vaccine because:

- I am a health care practitioner and this child was previously diagnosed with chickenpox or the parent provided a description that indicates this child had chickenpox in the past.
- I am the parent or guardian and this child had chickenpox on or before September 1, 2010.

Signature: _____ Date: _____
(of health care practitioner*, representative of a public clinic, or parent/guardian). Parent can sign if chickenpox occurred before September 2010.

*Health care practitioner is defined as a licensed physician, nurse practitioner, or physician assistant.
Minnesota Department of Health - Immunization Program (2019)

B. Non-medical exemption: A child is not required to have an immunization that is against their parent or guardian's beliefs. However, choosing not to vaccinate may put the health or life of your child or others they come in contact with at risk. Unvaccinated children who are exposed to a vaccine-preventable disease may be required to stay home from child care, school, and other activities in order to protect them and others.

By my signature, I confirm that this child will not receive the vaccines marked with an X in the table because of my beliefs. I am aware that my child may be required to stay home from child care, school, and other activities if exposed.

Signature: _____ Date: _____
(of parent or guardian in presence of notary)

Non-medical exemptions must also be signed and stamped by a notary:

This document was acknowledged before me on _____ (date)

by _____
(name of parent or guardian)

Notary Signature: _____

Notary Stamp
STATE OF MINNESOTA, COUNTY OF _____

3. Consent to share immunization information: This school is asking for permission to share your child's immunization record with Minnesota's immunization information system. Giving your permission will:

- Provide easier access for you and your school to check immunization records, such as at school entry each year.
- Support your school in helping to protect students by knowing who may be vulnerable to disease based on their immunization record. This can be important during a disease outbreak.

Under Minnesota law, all the information you provide is private and can only be released to those authorized to receive it. Signing this section of the form is optional. If you choose not to sign, it will not affect the health or educational services your child receives.

I agree to allow my child's school to share my child's immunization documentation with Minnesota's immunization information system:

Signature: _____ Date: _____
(of parent/guardian)
